

Things to Remember & Advice

Things to remember when storing property

- 1) Plan your storage space. Place those items that you may need to access often in front. Allow for walkways.
- 2) Place your furniture on cardboard or wooden boards to protect against the changing temperature of the concrete.
- 3) CAUTION: Do not store combustible items (i.e., paint thinner, gasoline, solvents, paint, etc.).
- 4) List contents of boxes on 3 x 5 cards (instead of on each box). Number the boxes to match the card numbers. Keep cards in a safe, convenient place for use when unpacking.
- 5) Stack items for best use of storage space. For example, put dressers on dressers with cloth towels between the wood, and then put light boxes on top.
- 6) Sofas and love seats can be stored on end to save floor space. Always place a protective cover on the concrete under the item. Cushions should be wrapped in plastic and placed on top.
- 7) Place bed sheets over your property for dust control.
- 8) Make surfaces of antiques and other wood furniture are treated before storing.
- 9) We provide use of security locks at no charge.
- 10) Make up an inventory of your stored items and keep it in a safe place at home or in a safe deposit box.
- 11) Use uniform size boxes for easy stacking. Be sure your boxes are strong to hold 25 to 30lbs.
- 12) Stack lighter boxes on top of heavier boxes.
- 13) Dishes and glasses should be packed in sturdy boxes. Stack them on top.
- 14) Pictures and mirrors should be packed in cardboard marked "FRAGILE" and stacked on end. Old mirrors that are laid flat can break from their own weight.

15) Tables having removable legs can be "broken down" to save space. They can even be bubble wrapped.

16) If you stand mattresses on their side, "prop" them up so they stand straight up. A leaning mattress might bend out of shape and become lumpy. It is best to store mattresses on top of a level stack of boxes or furniture.

17) Do not store perishable items (flour, potatoes, candy....). If you do, store in air tight containers.

18) Wrap stringed instruments in one or two blankets to insulate and protect; also loosen the strings.

19) Shovels, hoes, rakes, and hoses can be stored together in empty trash cans. Stack extra cans inside one another.

20) Larger appliances make excellent "packing cases" for blankets, towels, table cloths and clothes.

21) Furniture with drawers can be utilized as storage places for pictures, knickknacks, china, silverware, small items, etc. Wrap them in table cloths, towels or blankets to prevent breakage.
